

TRACY CROSS

PRODUCT-MINDED SOFTWARE DEVELOPER | OPERATIONS & SYSTEMS THINKING

Franklin, NC | tracycrossrvt@gmail.com | github.com/tracycrossrvt-gif | linkedin.com/in/tracy-cross-02b827370

PROFESSIONAL SUMMARY

Product-minded software developer with nearly two decades of veterinary operations and leadership experience. Combines systems thinking, workflow design, stakeholder communication, data literacy, and frontline user empathy with hands-on React/JavaScript development. Builds human-centered software by understanding the whole system, finding the friction, and translating messy real-world workflows into clear product requirements, data models, interfaces, and working software.

CORE SKILLS

Frontend & Product: JavaScript • React • Next.js • HTML/CSS • REST APIs • Recharts • Responsive UI • Accessibility • Requirements Gathering • Workflow Modeling • Product Discovery • Validation
Data & Tools: Supabase • PostgreSQL/SQL • Git/GitHub • Vite • Local Storage • AI-assisted Development
Operations: Process Improvement • KPI Analysis • Scheduling • Payroll • Inventory • Client Experience • Team Leadership • Cross-functional Coordination

PRODUCT & TECHNICAL PROJECTS

MMAC Hub | Nonprofit Operations Platform — Next.js, TypeScript, Supabase/PostgreSQL, Tailwind CSS, React Hook Form, Zod

- Designing and developing a full-stack operations platform and public website for Macon Moves Animal Care, a rural animal-welfare nonprofit.
- Translated real stakeholder workflows into product requirements, permissions, relational data models, service rules, availability logic, and MVP boundaries.
- Implemented the Assistance Intake backend foundation supporting requests, animals, prescreening, diagnostics, requested services, and availability; architecture is being built as a modular monolith with clearly separated operational domains.
- Uses Next.js 16, React 19, TypeScript, Supabase Auth/Storage/Realtime, PostgreSQL, React Hook Form, Zod, and Tailwind CSS.

VetIQ Analytics | Veterinary Performance Dashboard — React, JavaScript, Vite, Recharts, Local Storage

- Built an interactive veterinary analytics dashboard translating operational data into accessible KPI views for practice decision-making.
- Created reusable React components, responsive visualizations, drill-down views, and a practice health score grounded in real veterinary operations.

TaskFlow | Workflow Kanban Application — React, JavaScript, Vite, dnd-kit, Local Storage

- Built a drag-and-drop Kanban workflow with CRUD interactions, persistent state, and responsive task organization.

Nocturne | Movie Discovery Application — React, JavaScript, Vite, TMDB API, Local Storage

- Built a cinematic movie-discovery experience with API-driven content, search, favorites, detail views, and responsive interaction design.

PROFESSIONAL EXPERIENCE

Practice Manager | Noah's Ark Companion Animal Hospital, Playground & Play and Train

Franklin, NC | September 2024–Present

- Lead operations across a companion animal hospital, boarding facility, and training center, coordinating clinical, client-service, and leadership workflows.
- Monitor operational and financial KPIs and refine scheduling, client experience, staff workflows, inventory, and financial processes.
- Reduced staff turnover by 30% through structured onboarding and leadership development; led integration of boarding and training services into unified multi-site operations.

Veterinary Practice Manager / Veterinary Technician Manager | BluePearl Specialty + Emergency Pet Hospital

Oklahoma City, OK | March 2022–September 2024

- Progressed from Veterinary Technician Manager to Veterinary Practice Manager, supporting 10 doctors and 50+ team members in a high-volume specialty/emergency hospital.
- Led cross-functional process improvement, training, scheduling, payroll, staffing, KPI review, and operational coordination.
- Increased EBITDA by 6% over 12 months and reduced staff turnover by 25%.

Lead Technician / Practice Manager | Town and Country Animal Clinic

Greenville, MI | August 2019–March 2022

- Managed staff, inventory, budgeting, scheduling, vendors, and daily clinic operations while using operational and financial metrics to guide improvements.

Earlier Veterinary Operations & Clinical Experience | Heritage Veterinary Hospital; Veterinary Specialty Services; Animal Care Center

Missouri & Michigan | April 2008–June 2019

- Held progressive roles spanning practice management, lead technician responsibilities, and emergency/critical care, with hands-on responsibility for payroll, inventory, staffing, scheduling, training, vendor relations, and clinical operations.

EDUCATION & CREDENTIALS

Master of Business Administration (MBA), Leadership — Southern New Hampshire University

Bachelor of Science in Business Administration, Leadership Focus — Capella University | July 2022

Associate of Applied Science in Veterinary Technology — Brown Mackie College | October 2011

Licensed Veterinary Technician | August 2013–Present
