Tracy Cross – Product Manager Resume

Product Manager | Workflow Design | Software Rollout | Requirements | React | Next.js | PostgreSQL

tracycrossrvt@gmail.com | Remote or hybrid Atlanta | LinkedIn | GitHub | Portfolio

Summary

Technical Product Manager & Operations Lead with 15+ years driving business transformation, software migrations, and internal digital tooling. Proven track record conducting frontline discovery, mapping complex workflows, and architecting stakeholder-approved MVPs. Combines hands-on development in React, Next.js, and SQL with deep P&L acumen to deliver scalable products that optimize margins and user adoption.

Technical & Product Skills

Product & Operations: Requirements Gathering, Workflow Mapping, User Discovery, Prioritization, Software Rollout, Change Management, P&L & EBITDA Leadership

Technical Stack & Tools: React, Next.js, TypeScript, JavaScript, PostgreSQL, Supabase, REST APIs, Gemini / OpenAI APIs, SQL, Git, Vercel, ezyVet, Figma

Experience

AmeriVet Partners / Noah's Ark Companion Animal Hospitals – Franklin, NC

Business Operations Lead & Product Specialist · Sep 2024 – Present

- **Accelerated legacy Cornerstone-to-ezyVet platform migration from 40% to 90% completion** by leading weekly cross-functional sprints, standardizing pricing catalogs, and designing custom workflow templates that drove adoption across the hospital team.
- **Reduced hourly labor overhead from ~28% to 14–19% of revenue** by leading discovery for an enterprise ezyVet rollout, gathering user requirements, and restructuring staffing models around demand, elevating the hospital into the network's top 10% nationwide for EBITDA and KPI performance.

- **Optimized operating margins and COGS** by implementing automated usage- and shelf-life-based purchasing workflows and establishing strict revenue-linked departmental budgets.
- **Standardized medical record documentation across two partner hospitals** through structured client-communication frameworks and leadership coaching, helping rank the home hospital top three regionally for new client acquisition.

BluePearl Specialty + Emergency Pet Hospital – Oklahoma City, OK

Business Operations Lead (Promoted from Clinical Operations Lead) · Mar 2022 – Sep 2024

- **Safeguarded round-the-clock continuity across a 60-employee 24/7 business unit** by redesigning departmental service delivery and staffing models four times during clinician shortages, sustaining a 5–7% year-over-year EBITDA growth.
- **Raised client Net Promoter Score (NPS) from the low 50s into the mid 60s** by establishing weekly quality audits of customer interactions and implementing targeted frontline coaching.
- **Eliminated operational silos across 5 department leaders,** introducing daily huddles, weekly 1-on-1s, and cross-shift strategy syncs.

Skinstric AI – Remote

Frontend Developer Intern · Sep 2026 – Oct 2026

- **Engineered real-time skin analysis UI (sub-2s latency, 98% accuracy)** by pairing OpenAI Vision API with Next.js Server Components, custom GSAP timelines (+40% retention), and modular TailwindCSS cards (+60% recommendation engagement).

Key Product & Technical Projects

VetIQ Analytics MVP (AmeriVet Partners)

Live Demo | GitHub

- Architected and launched an operational analytics MVP using React and Recharts, integrating automated KPI dashboards, labor tracking, and financial forecasting; secured executive leadership buy-in to advance the MVP for regional management training across 250+ managers.

MMAC Hub – Animal Welfare Operations Platform

Live Demo | Case Study | GitHub

- Replaced paper-based intake for a 3-county animal welfare nonprofit with a Next.js, TypeScript, and Supabase/PostgreSQL platform: no-login public assistance intake, staff triage and case-dispatch workflows, and validated relational data.

VetBoard – AI VTNE Study Tool

Live Demo | GitHub

- Built and deployed an AI VTNE exam-prep tool (Next.js, React, Gemini API) with an AAVSB-weighted question bank and AI tutor; scaled to 300+ technicians, using telemetry to prioritize the roadmap.

Education & Credentials

School	Program	Dates
Quantic School of Business & Technology	M.S. in AI Engineering (MSAIE)	Starting Jan 2027
Southern New Hampshire University	MBA, Leadership Specialization	May 2024 – Present
